The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$ 3.30 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.</div> <div>fueleconomy.gov</div> <div>Calculate personalized estimates and compare vehicles</div>                                                                                                                                                                                                                                                                                                        |  | <div><div></div><div>Smartphone QR Code™</div><div></div></div>                                                                                                                                                                                                                                                                                                                                                                                                                              |        |           |       |           |         |      |            |           |       |           |           |                                                                                                                                                                                                                                                                                                                                                                                                           |  |
